PROFESSIONAL SUMMARY

I am a seasoned Software Engineer and Web Developer with over a decade of hands-on experience in building scalable, secure, and user-focused digital solutions. My expertise spans across Java, PHP, JavaScript, React, Node.js, Laravel, and CodeIgniter. I specialize in transforming complex business requirements into efficient, high-performing applications that align technology with strategic goals across diverse industries.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Java, PHP, AJAX
- **Frontend:** React.js, Tailwind CSS, Styled-components, HTML5, CSS3, React Hook Form, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs, PHP, Laravel, CodeIgniter
- **Database:** MongoDB, MySQL, Oracle
- **Tools & Utilities:** Git, GitHub, Postman
- **Deployment:** Vercel, Netlify
- **Other:** Responsive Design, Component Architecture

PROJECT EXPERIENCE

1. Developer Portfolio Website
A dual-access portfolio (Developer View & Client View). Features include role-based access selection, detailed tech stack overview, and project galleries.

2. World Country App
A responsive React app that displays global country data with search, filtering, and detailed views.

3. Space Tourism App
An interactive React project simulating a futuristic space travel experience by showcasing destinations, crew, and technologies.

WORK EXPERIENCE

Web Developer
Ntech Information System

- Developed internal tools using CodeIgniter
- Led training sessions on CodeIgniter, JavaScript, HTML/CSS
- Implemented mobile-first UI using Bootstrap
- Reviewed peer code for best practices and scalability

EDUCATION

- **WAEC** — 2011
- **First School Leaving Certificate** — 2005
- **Diploma** — 2014
- **BSc** — 2023

CERTIFICATIONS

- Full-Stack Web Development — Tech Studio
- Diploma — JOBITECH
- BSc — Tai Solarin University of Education
