PROFESSIONAL SUMMARY

Full-Stack Web Developer with 5+ years of experience building scalable, secure, and high-performance applications across fintech, e-commerce, and enterprise platforms. Proficient in JavaScript, PHP, Node.js, NestJS, and Laravel, with a strong focus on REST API design, financial systems integration, and modern frontend development. BSc in Business Education provides a unique edge in translating business requirements into technical solutions.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Styled Components
Backend	Node.js, Express.js, NestJS, PHP, Laravel, CodeIgniter
Databases	MongoDB, MySQL, PostgreSQL
APIs & Tools	REST APIs, Git/GitHub, Postman, Vercel, Netlify, Webhook Integration
Specialties	Authentication & Authorization, Financial Systems, Payment Gateways (Remita), KYC/AML, Background Jobs & Queues

WORK EXPERIENCE

Backend Developer — Gloubal Inc.	Dec 2025 – Feb 2026
- Designed and maintained secure REST APIs handling payments, transfers, withdrawals, and account management with robust authentication and authorization controls. - Implemented business and financial logic covering transactions, fees, VAT, balance validation, and spending limits to ensure accurate, consistent financial calculations. - Protected sensitive financial data through encryption, access controls, and secure storage in compliance with regulatory standards. - Designed efficient database schemas, managed transactions, and implemented safeguards against double-spending. - Integrated third-party financial services including payment gateways, banking APIs, KYC/AML services, and notification systems with proper failure handling and webhook security.	
Backend Developer — SapphireCredit	Sep 2025 – Dec 2025
- Developed and maintained Laravel-based backend systems integrating Remita APIs for digital loan mandates and automated repayment cycles. - Automated financial workflows, reducing manual intervention and improving processing accuracy. - Optimized MySQL database performance and reliability for high-volume transaction processing. - Managed background jobs and queues for large-scale financial operations. - Ensured secure, efficient communication between Vue.js frontend and backend services.	
Web Developer — Ntech Information System	2015 – 2017
- Developed internal business tools using CodeIgniter and PHP, improving operational efficiency. - Delivered mobile-first, responsive UIs using Bootstrap across multiple client projects. - Led training sessions for junior developers on CodeIgniter, JavaScript, and HTML/CSS. - Reviewed and optimized peer code for scalability, performance, and best practices.	

KEY PROJECTS

- **Church Finance Management System:** Built a full-stack income and expenditure tracking platform for a religious organization, enabling real-time financial reporting, transaction logging, and budget monitoring. Stack: PHP, JavaScript, AJAX, MySQL.
- **Fintech Backend Platform – Gloubal Inc.:** Designed and maintained secure REST APIs for a financial platform handling payments, transfers, withdrawals, and account management. Integrated payment gateways, banking APIs, KYC/AML, and webhooks. Stack: Node.js, Express.js, PostgreSQL.
- **ShopWave – Multivendor E-Commerce Platform:** Full-stack marketplace built with NestJS and Next.js. Features vendor onboarding, product management, order processing, and payment integration.
- **Admin Dashboard – Tidoy Booking App:** Full-stack property management dashboard handling hotels, apartments, and villas. Stack: React, Tailwind CSS, Node.js, Express, MongoDB, Cloudinary.
- **Loan Application Backend:** Scalable Laravel REST API integrated with Remita for end-to-end management of digital loan mandates and automated repayment cycles.
- **Business Sales Dashboard:** Real-time KPI and sales monitoring dashboard with API integration for dynamic data visualization. Stack: React.js, Tailwind CSS.

EDUCATION & CERTIFICATIONS

BSc, Business Education — Tai Solarin University of Education | 2018 – 2023

NYSC — National Youth Service Corps | 2023 – 2024

Diploma in Software Development — JOBITECH | 2012 – 2014

Full-Stack Web Development Certificate — Tech Studio | 2025
